

**The George Washington University's
Institute for Biomedical Sciences**

MEMBERSHIP APPLICATION

Date: _____

Name: _____

Title: _____

Address: _____

Phone: _____

Fax: _____

E-mail: _____

1. Much of the necessary information is included in the standard NIH biosketch (format attached). If you have a bio from a recent application, attach it to this form. If not, prepare a biographic sketch in that format—listing all publications during the last 5 years.

2. List all recent (last 5 years), present and pending research funding, including for each award application:
 - A) Source of Funds
 - B) Title of Project
 - C) % Effort
 - D) Dates and Funding of entire project
 - E) Dates and Funding of current year

3. List all graduate students you have mentored or sponsored during the past 10 years. For each, indicate the date the student began research, thesis topic, the date the PhD was awarded, and the subsequent position taken by that student. Indicate also if you were the research director, co-director, or committee member.

**The George Washington University's
Institute for Biomedical Sciences**

4. List all postdoctoral trainees you have mentored during the past 10 years; for each, indicate the date the trainee began in your laboratory, the date training was completed, and the subsequent position taken by that trainee.

5. Please provide a cover letter indicating how you would like to participate in the IBS. This may involve teaching an existing course, offering new courses, sponsoring student lab rotations, or providing dissertation research opportunities for students. Please send this cover letter, along with the membership application to the IBS in electronic or paper form.

The Executive Committee reviews membership applications as they are received. Please complete the application and Biographical Sketch and send them to the Institute for Biomedical Sciences, 2300 Eye Street NW, Ross Hall, Room 561, Washington, DC, 20037.
