A Minor in

Human Anatomy

is a good program for students planning to enter the health professions

Offered for Undergraduates in:

Columbian College of Arts & Sciences
School of Business
School of Engineering & Applied Science
School of Public Health & Health Services

Obtain a basic understanding of human Gross Anatomy, Embryology, Histology and Neuroanatomy

A minor in human anatomy will be an asset for the future careers of students intending to go to Medical, Dental school, or as a health care professional as well as those majoring in Anthropology, Athletic Training, Psychology, Speech and Hearing Science, Biology, Marketing (e.g. of medical devices or pharmaceuticals), and Bioengineering.

Required courses:

ANAT 2130  Human Embryology (3) Fall Only
ANAT 2150  Human Microscopic Anatomy (3) Fall Only
ANAT 2160  Human Functional Neuroanatomy (3) Spring Only
ANAT 2181  Human Gross Anatomy (3) Spring Only

This secondary field of study (minor) consists of 12 credits of these Anatomy courses with prerequisites of BiSc 5 and 6 (3 credits each) or BiSc 11 and 12 (4 credits each) or permission from the Director.

Courses are taught in the GWU Medical Center (Ross Hall) by Medical School Faculty in the Dept. of Anatomy & Cell Biology
