

STATISTICAL MODELING & MACHINE LEARNING WORKSHOP

ARTIFICIAL INTELLIGENCE FOR CLINICAL DATA MINING

December 7, 2018
9:00 am — 4:00 pm
George Washington University
Science & Engineering Hall, Rm 7750

This free, one-day workshop will introduce three methods of AI data analysis in a beginner-friendly environment through a mix of theory and hands-on practice.

Clinicians, researchers and graduate students are welcome. A basic understanding of statistics and/or programming (any language) will be helpful, but is not required. Attendees should bring a laptop.

Lunch will be provided.

*** Seating is limited * RSVP early ***

Please register at <http://j.mp/2P789oP>.
