GW Contact Tracing Algorithm
Updated: April 2, 2020

**Exposure to COVID-19 positive person (source) within 6 feet for >10 minutes**

- **Was the source wearing a facemask?**
  - Yes
  - No
  - **Was the HCP wearing a facemask?**
    - Yes
    - No
    - **Did the exposure involve close interaction with respiratory secretions or involve aerosolization (e.g. intubation, NG tube placement, suctioning)?**
      - Yes
      - No
      - **Was the HCP wearing eye protection?**
        - Yes
        - No

1. **Continue working**
2. **Wear facemask at all times**
3. **Self-monitor symptoms for 14 days**
4. **Obtain PCR molecular test at MFA tent at Day 7***

**HCP = Healthcare personnel**

**Facemask = Surgical facemask or non-fit tested N95. Wearing at all times includes break-times with co-workers.**

**Self-monitoring = Checking temperature twice daily, monitoring for respiratory symptoms (e.g., cough, shortness of breath, sore throat). Report symptoms on the GW online tracking system.**

*Molecular Testing is done at the MFA Tent for MFA and University HCP. Molecular Testing is done at the Hospital for Hospital employees.*
