The GW Medical Faculty Associates

1. **Hand Washing**: Hand hygiene is a key component of keeping everyone safe both from COVID-19 and other illnesses. You must wash your hands or use hand sanitizer BEFORE and AFTER every patient interaction. "Wash In AND Wash Out" of every hospital room, clinic room, team room, and patient encounter.

2. **Staying Safe**: In addition to understanding/practicing our safety measures, we want to remind you to stay home if you are feeling ill and please STAY HOME until you have recovered. This is important anytime you are sick, whether related to COVID-19 or not. The best way to care for our patients and support our colleagues is to stay home to protect everyone! Take good care and be safe.
3. Wearing a Face Mask is Critical: Wearing face masks greatly reduces the transmission of COVID-19 and saves lives. Remember to always wear your face mask covering both your nose and mouth whenever in public areas or around other people. This includes outdoor spaces, such as when walking between buildings and/or when walking to and from the hospital. Thanks to everyone for doing your part to keep us all safe.

GW Hospital

1. Travel to High Risk States: Mayor Muriel Bowser has issued an order requiring individuals to self-quarantine when returning to DC after non-essential travel to one of the "high risk" states in the nation. The self-quarantine should last 14 days from the date of your return from the identified high risk state. This includes states that were recently identified on the latest high risk list. The latest list of states was updated Monday, Aug. 24 and is in effect until Monday, September 7. The new list of states is here: https://mayor.dc.gov/release/dc-health-releases-updated-list-high-risk-states-8-24-2020

This order applies to all individuals, including employees, visitors, and providers at health care facilities. For more details, please visit: http://definingmedicine.corp.uhsinc.biz/Site/view.cfm?siteID=2000880. Please note that this list will be updated again on Monday, September 7 and we will communicate that out once it becomes available.

2. Masks Remain Mandatory: It remains mandatory that masks be worn in the facility at all times by everyone, including staff, visitors and patients. Masks should cover the nose and mouth. The DC Mayor has also mandated that masks be worn at all times when leaving the home, except in specific and limited instances. Thank you for helping us stop the spread of COVID-19.
