

MFA Pre-Visit Testing

*****NOTE: COVID-19 testing requires ordering provider to coordinate and follow up on testing results**

		Patient			
		COVID-19 Negative ¹	COVID-19 Unknown Asymptomatic	COVID-19 Unknown Symptomatic	COVID-19 Positive or PUI
MFA Ambulatory Visit	Clinic visit	No pre-visit testing	No pre-visit testing	Requires COVID-19 testing	COVID-19 positive plan
	Head/neck exam (Ophtho, OHNS) without AGPs ²	No pre-visit testing	No pre-visit testing	Requires COVID-19 testing	COVID-19 positive plan
	Diagnostic testing ³	No pre-visit testing	No pre-visit testing	Requires COVID-19 testing	COVID-19 positive plan
	Infusion center	No pre-visit testing	No pre-visit testing	Requires COVID-19 testing	COVID-19 positive plan
	Invasive procedures ⁴	No pre-visit testing	COVID-19 testing when clinically indicated	Requires COVID-19 testing	COVID-19 positive plan
	AGPs ²	No pre-visit testing	Requires COVID-19 testing, unless patient vaccinated ⁵	Requires COVID-19 testing	COVID-19 positive plan

¹COVID-19 Negative: COVID-19 negative test within 5 days. Patients who are previously COVID-19 positive who are undergoing procedures with anesthesia will need to follow the anesthesia hybrid-based approach to clearance.

²AGPs - Aerosol generating procedures (e.g., office bronchoscopy, office esophagoscopy, laser laryngoscopy, PFT, dental work, etc)

³Diagnostic Testing (e.g., ultrasound, screening/diagnostic mammogram, echo, stress test, imaging, lab tests, etc)

⁴Invasive procedures (e.g., proctoscopy, cystoscopy, myringotomy, sinus debridement, hysteroscopy, etc)

⁵Requirement for vaccination exemption to pre-visit COVID-19 testing:

- Has been fully vaccinated against COVID-19 (fully vaccinated in this context is defined as 14 days or more after receipt of the second dose of a two-dose series or after one dose of a single-dose vaccine).
- Appropriate PPE must still be worn
