PA/NP ACTIVITIES IN PRIMARY CARE: MORE PREVENTION, MORE PRESCRIBING?

Join the PCH Department and Professor James Cawley Friday November 21st to hear about his research on the contributions of PA’s and NP’s in our health care system.

- What preventative elements can PA’s and NP’s bring to the primary care visit?
- What correlating factors cause PA’s to have higher success in patient smoking cessation than MD’s?
- What makes NP’s better at Diabetes management?
- Why do PA’s/NP’s prescribe more antibiotics than MD’s?
