

IN THIS ISSUE

1. Resources for Teaching Remotely

1. Teaching Remotely

In the case of inclement weather, metro closures, medical closures, or other situations, there are many options for teaching students via online formats.

The CFE suggests the following 3 options for teaching in the upcoming COVID-19 Online Education period:

- Record your session to be delivered to students online asynchronously
- Use Web Conferencing technology to conduct an online synchronous session
- Link to a previously recorded session (Panopto)

3. Upcoming Events

The CFE website has a page dedicated to those options:

<https://smhs.gwu.edu/cfe/programs/specialty/teaching-remotely>

Guides and Just-in-time training materials are posted and will continue to be developed as needed.

4. Educational Technology Resources

2. Temporary Recording Space in the CFE

The CFE has temporarily designated an office as a recording space for faculty who wish to record their sessions to be posted online for students to view asynchronously.

The recording space will be equipped with a microphone, webcam, and laptop that has PowerPoint and recording software (Camtasia), as well as instructions for using these tools. To sign up for a time to use the recording space, please use [this calendar](#). (<http://go.gwu.edu/CFEstudio>).

3. Upcoming Events

March 18 - [Peer Mentoring Groups \(PMG\)](#)

Faculty from across SMHS meet monthly on the 3rd Wednesday of each month at noon as a [Peer Mentoring Group \(PMG\)](#). We share our experiences and strategies on topics of interest to the group, including effective mentoring, establishing a research agenda, expanding our networks, and utilizing GW resources. Join us on **Wednesday, March 18 at noon** in Himmelfarb 103B (conference room within the Center for Faculty Excellence). Contact Dr. Lisa Schwartz, Faculty Development Associate at LSchwartz@gwu.edu for more information or to obtain log in information to join via WebEx.

Also - if you are looking for 1-time mentoring: Experienced SMHS faculty are eagerly standing by to provide confidential, 1-hour [micro-mentoring consultations](#) on a number of career-related topics, such as Clarifying Academic and Professional Goals and Developing a Teaching Portfolio. Find your micro-mentor today!

March 20 - Accelerating Learning: Using What We Know About the Brain

Join us for a workshop as we discuss how to apply what we know about how the adult brain works to accelerate student learning in medicine and health sciences!

Objectives for this workshop:

- Apply teaching strategies for reducing barriers to learning
- Use patterns to both deepen and expand understanding
- Identify ways to promote metacognition

Friday, March 20 from 12-1 pm, Ross Hall 602.

Boxed lunches provided.
