

General Guidelines and Procedures Related to COVID 19 for Clinical Students

General Guidelines and Procedures to Follow Related to COVID-19

- 1) Review the following COVID preparedness guidelines and modules.
 - a. Complete the COVID Safety/PPE module
 - b. Travel Policy and requirements
- 2) Review any specific guidelines of the clinical site you will be rotating.
- 3) Steps to take if exhibiting respiratory or viral symptoms OR have a known COVID-19 exposure
 - a. If at home, stay home. If on a clinical rotation, notify your supervising attending and Clerkship or Course Director. If you are at a clinical site, continue wearing mask and remove self from others until further directed.
 - b. Call Colonial Health @ 202-994-5300 immediately to triage risk of COVID-19 infection and follow their direction.
 - c. Notify Associate Dean Goldberg in the Office of Student Affairs by email or phone (202-994-3176 or cell phone) to discuss guidance from Colonial Health.
 - d. Follow guidance from Colonial Health for instructions on testing, treatment and evaluation, and initial medical clearance. Colonial Health clearance is then submitted to the clinical site for final clearance for permission for the student to return to clinical duties. Colonial Health clearance must also be submitted to Dean Goldberg
 - e. Final clearance, and permission for the student to return to clinical duties must come from the course or clerkship director. This clearance must be submitted to Dean Goldberg as well.
- 4) If you have medical issues that concern you about working in a clinical setting or do not feel safe while at a clinical site, please contact Associate Dean Goldberg by email or phone (202-994-3176) or cell phone
