PLEASE JOIN US FOR ONE OF OUR

Work From Home

TRAINING SESSIONS

We will be reviewing the tools and resources to enable you to work from home using your GW SMHS issued laptop or even your personal computer. We will be talking about specific resources like the Cisco VPN application, Cisco WebEX, Cisco Jabber and others. We will also briefly talk about faculty resources like Panopto and BlackBoard Collaborate.

We will plan on 20-30 minutes of training with another 20 minutes for hands-on work, so bring your GW SMHS laptop and your phone. Technicians will be on-hand to help set up any of the discussed applications.

Sessions will be held:
Wednesday, March 11th from 10-11a.m. in Himmelfarb B103
Friday, March 13th from 2-3 p.m. in Ross Hall 201
Friday, March 20th from 10-11a.m. in Himmelfarb B103
