CTSI-CN KL-2 SIG: The Role of Foundation Funding

After participating in this webinar learners should be better able to:

- Consider how foundation funding may fit into a clinical researcher's career trajectory.
- Work with your foundation relations office to identify foundation awards for which you are eligible.

Speakers (From left): **Dorcas Blue** (Exec. Dir., Foundation Relations GW), **Luke Mallari** (Sr. Assoc. Dir. Foundation Relations, CNH) and **Stephen Planas** (Sr. Assoc. Dir., Foundation Relations, CNH)

Foundation Funding for Research

April 2024

THE GEORGE
WASHINGTON
UNIVERSITY
WASHINGTON, DC

The Office of Corporate and Foundation Relations (CFR), part of Development & Alumni Relations' central development team, fosters strong relationships between GW and its corporate and foundation partners.

[About](#) | [For Faculty & Staff](#) | [For Corporations](#) | [For Foundations](#) | [Funding Database](#) | [News](#) 

GW's Office of Corporate and Foundation Relations (CFR) works with institutional partners to develop innovative programs, support faculty research, and advance the university's educational mission around the world.

We specialize in building relationships with internal and external entities to create opportunities for collaboration and funding. Situated within the Division of Development and Alumni Relations (DAR), our team is a central contact for your questions about foundations, corporations, associations, and other non-federal parties.

- Gifts and grants

GW Funding Databases

Find Funding

We provide a compilation of open Requests for Proposals (RFPs) from foundations and corporations on our [Funding Database pages](#). While this list includes many, diverse grant categories and is frequently updated, please note it is neither exhaustive nor representative of all possible funding opportunities.

[Peruse Our Custom Database](#)

Not finding a grant opportunity in your field? We recommend you utilize one of the following resources to get a better understanding of the institutional funding landscape for your work:

[Foundation Directory Online](#)

Search thousands of grant opportunities by category by using GW's subscription to Foundation Center's online database. For log-in access, please follow the instructions below or contact our office at [cfr@gwu.edu](tel:202-994-1907) or 202-994-1907 for additional assistance.

1. Make sure you are accessing GW's internet network either by utilizing GW's Wifi/Ethernet within campus or through GW's VPN connection when off-campus.
 - Read [instructions on how to access GW's VPN](#).
2. Visit the [GW Libraries A-Z database](#).
3. Scroll down the list of resources to "Foundation Directory Online" and click on that link for access.

**Please note, you must maintain connection to GW's internet servers in order to have full access to Foundation Directory Online resources.*

cfr.gwu.edu

There are a number of things to consider as you refine your search for funding and evaluate opportunities and sponsors.

[View our "Find Funding Checklist"](#)

Funding Databases

Investigators at the George Washington University (GW) can use a number of web-based search tools to locate funding and contract opportunities. Begin your search using one or more of the databases listed below.

Pivot

[Pivot](#) is a searchable database of funding opportunities from federal and non-federal sources including foundations and commercial sponsors. The university's subscription to this service allows GW users to create customized searches and have matching opportunities e-mailed as they are posted.

Contact reshelp@gwu.edu or 202-994-6255 for Pivot access and training or view more [detailed instructions \(PDF\)](#) on how to set up an account, claim an existing account or conduct searches.

Essential Resources

myResearch

The modernization of core research infrastructure is essential to support GW's vibrant and growing research community. In response to GW's strategic initiative to enhance the research experience and feedback gathered during the faculty-led research ecosystem review, the Office of the Vice Provost for Research (OVPR) is spearheading the implementation of myResearch, an enhanced electronic research administration (eRA) tool.

When fully implemented, myResearch will be GW's integrated online system for proposal development and sponsored award management.

[Support](#)

[Training](#)

[FAQs](#)

[Project Details](#)

Login to myResearch

myResearch utilizes GW's single sign-on (SSO). The system can be accessed by visiting <https://myresearch.gwu.edu> and logging in with GW credentials.

Office of Clinical Research

The George Washington Office of Clinical Research (GW OCR) is committed to providing high quality for the efficient execution and management of impactful clinical research while ensuring the highest research participant safety.

We partner with faculty and cores to coordinate services for:

- Researchers, by assisting with study start up and quality
- Patients, by providing information on ongoing clinical studies
- Sponsors, by helping network GW investigators, compliance
- Training, Education and Resources

This centralized office serves as a resource for faculty and staff involved in clinical and translational research. The OCR is committed to providing clinical research education and ensure that operations, regulatory-compliance, and finances are properly managed. We collaborate with GW faculty and external partners to develop and launch innovative clinical research projects.

[Home](#)

George Washington University (GW) utilizes a "pod" model for sponsored research administration. Each pod supports two or more schools and their affiliated research centers and institutes.

- Pods 1 & 2 manage the complete lifecycle of a sponsored research project and provide continuity from inception to award closeout.
- Pod 3 manages pre-award activities while school-based research administrators manage post-award activities.

More details on each pod, including staff portfolio assignments, can be found on the pod websites linked below.

Children's National®

Children's National Hospital Foundation + Early Career Funding

April 18, 2024

How We Can Help You

Prospect Identification

- Prospect research for faculty projects
- Dissemination of grant opportunities

Prospect Engagement

- Strategy development
- Discovery and cultivation meeting coordination
- Limited submission navigation

Proposal Development

- Alignment with funder interests and guidelines
- Narrative editing and enhancement
- Attachment compilation (e.g., lay summaries, letters of support, organizational documents, etc.)
- Proposal Development and Grants & Contracts coordination

Prospect Stewardship

- Thank you letters
- Check-in calls between funder and project team
- Narrative report development and review
- Long-term relationship strategy

Teams Supporting You and Your Research

Foundation Relations

- Liaises with Proposal Development and Grants & Contracts
- Works alongside faculty as frontline point-of-contact to funder
- Provides strategy support for cultivation, solicitation, and stewardship
- Works with faculty to ensure proposal meets funder guidelines, reviews proposal materials

Proposal Development Grants & Contracts

- Works with faculty to prepare grant submissions
- Ensures that proposal is compliant with CNH and funder guidelines
- Provides final approval for proposal submission
- Oversees administration of grant after the award comes through

Grants Enhancement Program

- Assists junior faculty with proposal development and applications
- Senior investigator review panel that provides detailed review, feedback/mentoring in concert with faculty member's mentor
- Maintains library of successful applications; timelines/detailed checklist for NIH submissions; other supporting documents
- Part of CTSI-CN

Early Career Awards Examples

6 awards
\$500K

American Heart Association®

4 awards
\$300K

HYUNDAI HOPE ON WHEELS®
Helping Kids Fight Cancer Since 1998

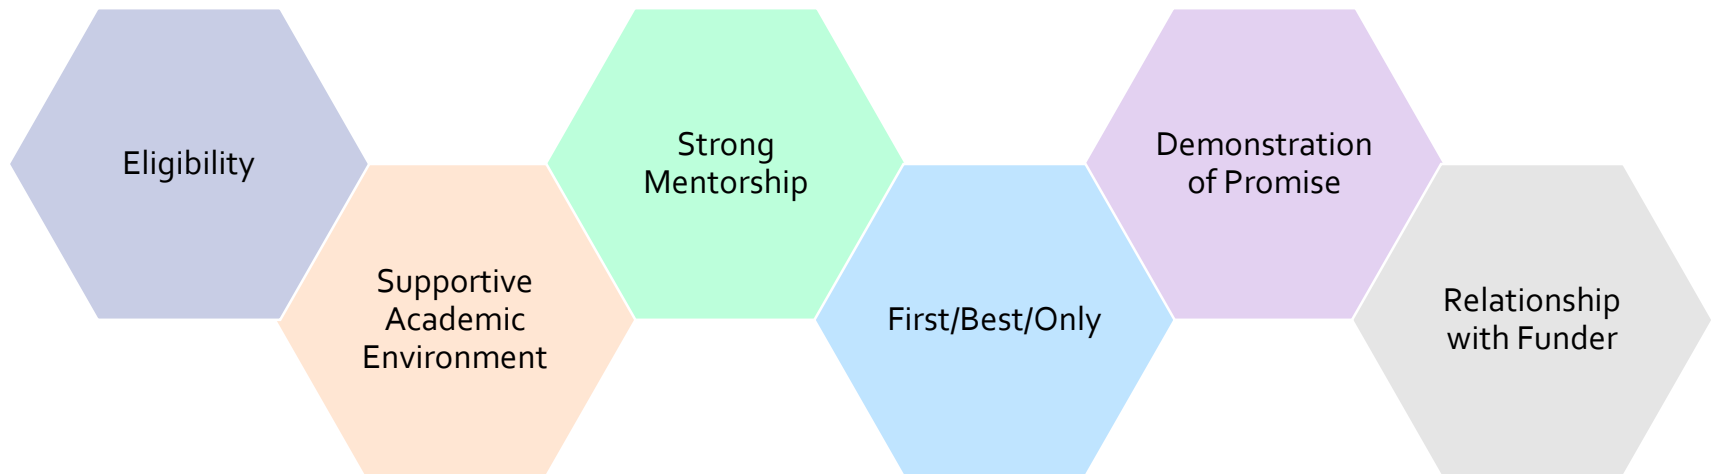

6 awards
\$1.35M

2 awards
\$140K

*Figures since 2021
