POLICY ON MID-CLERKSHIP FEEDBACK

Policy Statement

All students must receive mid-clerkship feedback from supervising faculty physicians. The receipt of such feedback must be documented with appropriate forms or instruments and collected and confirmed by the clerkship director or coordinator at the mid-point of each rotation.

Clerkship directors will report the status of mid-clerkship feedback monitoring to the Office of Medical Education by the midpoint of each clerkship and to the Clinical Subcommittee of the Committee on Undergraduate Medical Education Curriculum (CUMEC) annually for central review.

Reason for Policy/Purpose

As per LCME DCI element 9.7, this policy is to ensure timely formative student feedback is performed with sufficient time for remediation and this formative feedback is monitored at the department level and at the curriculum management level

Who Needs to Know This Policy

All students, residents, fellows, faculty, and staff of the School of Medicine and Health Sciences
